

# Sprint 2 Release

Status	ID	User Story Description	Type	Story Points
Completed	4	Data Persistence: Users can save their entered grades and class data so it loads on the next use.	Feature	5
Completed	6	Modern GUI: Develop a clean, responsive graphical user interface using a modern framework.	Feature	13
In Progress/ Incomplete	5	"What If" Calculation: Users can enter a hypothetical score for a future assignment to see its impact on their final grade.	Feature	8

## Sprint 2 Summary

- Total Story Points Planned: 26 ( $5 + 8 + 13$ )
- Total Story Points Completed: 18 ( $5 + 13$ )
- Story Points In Progress: 8

**Key Accomplishments:** We successfully implemented Data Persistence to allow users to save and load their data, and we have the initial version of our GUI up and running, providing a clean and responsive user interface. The "What If" calculation is currently being developed and will be completed in sprint 3.
